INDEX

Accessory food factors, conditions of inactivation of (Zilva) 42
Andrenaline, action of, on secretion of mammary gland (Rothlin, Plimmer and Husband) 3
Amino-acids of flesh (Rosedale) 27
ANNETT, H. E. The enzymes of the latex of the Indian poppy (*Papaver somniferum*) 765
Antineuritic vitamin, in urine (van der Walle) 713
Antiscorbutic vitamin in urine (van der Walle) 713
Antithrombins (Pickering and Hewitt) 587
Apples, soluble pectin of (Carré and Haynes) 60
Artemisia afra, constituents of flowering tops of (Goodson) 489
ATKINSON, E. and HAZLETON, E. O. A qualitative tannin test 516
Atrolactic acid, fate of, in body (Kay and Raper) 465
Atropic acid, fate of, in body (Kay and Raper) 465
Autolysis of beef and mutton (Fearon and Foster) 564

Bacillus diphtheriae, mechanism of reversal in reaction of medium, caused by (Wolf) 541
BACOT, A. W. and HARDEN, A. Vitamin requirements of *Drosophila*. I. Vitamins *B* and *C* 148
Bacteria, production of hydrogen peroxide by (McLeod and Gordon) 499
Beef, autolysis of (Fearon and Foster) 564
Bence-Jones' Protein, nitrogen-distribution in (Lüscher) 556
BERKELEY, C. On the occurrence of manganese in the tube and tissues of *Mesochaetopterus Taylori*, Potts, and in the tube of *Chaetopterus Variopedatus*, Renier 70
Biological value of proteins (Martin and Robison) 407
Blood, calcium in, estimation of (Ling and Bushill) 403
Blood, coagulation of (Pickering and Hewitt) 587
Blood-corpuscles, red, influence of the spleen upon (Bolt and Heeres) 754
Blood enzymes (Compton) 460
Blood, human, nature of reducing substance in (Cooper and Walker) 455
Blood, non-protein nitrogen in, estimation of (Ponder) 368
Blood, of equines (Neser) 770
Blood, whole, action of, upon acids (Kennaway and McIntosh) 380
BOLT, N. A. and HEERES, P. A. On the influence of the spleen upon red blood-corpuscles I. 754
BOND, M. A modification of basal diet for rat feeding experiments 479
BOOCK, E. and TREVAN, J. The food value of mangolds and the effects of deficiency of vitamin *A* on guinea-pigs 780
BRADFORD, S. C. An improvised electric thermostat constant to 0·02° 49
BUSHILL, J. H., *see* LING, A. R.

Calcium, estimation of, in blood (Ling and Bushill) 403
Calcium, estimation of small quantities of (Laidlaw and Payne) 494
CAMPBELL, J. A. and WEBSTER, T. A. Effect of severe muscular work on composition of the urine 106
CAMPBELL, J. A. and WEBSTER, T. A. Note on urinary tides and excretory rhythm 507
CANNAN, R. K., *see* DRUMMOND, J. C.
CANNON, H. C., *see* OSBORNE, T. B.
Carbohydrate, influence of, on nitrogen distribution in urine (Cathcart) 747
Carbohydrates, oxidation of, with nitric acid (Haas and Russell-Wells) 572
Carbonic acid in blood and salt solutions (Warburg) 153
Carnosine, catalytic destruction of, in vitro (Clifford) 792
Carnosine, content of muscle, effect of cold storage on (Clifford) 341
Carnosine, estimation of, in muscle extract (Hunter) 640
Carrageen, constitution of cell wall of (Russell-Wells) 578
CARRÉ, M. H. An investigation of the changes which occur in the pectic constituents of stored fruit 704
CARRÉ, M. H. and HAYNES, D. The estimation of pectin as calcium pectate and the application of this method to the determination of the soluble pectin in apples 60
CASTELLANI, A. and TAYLOR, F. E. Identification of inulin by a mycological method 655
CATHCART, E. P. The influence of fat and carbohydrate on the nitrogen distribution in the urine 747
Chaetopterus variopedatus, occurrence of manganese in tube of (Berkeley) 70
CHIBNALL, A. C. Investigations on the nitrogenous metabolism of the higher plants. Part II. The distribution of nitrogen in the leaves of the runner bean 344
CHIBNALL, A. C. Investigations on the nitrogenous metabolism of the higher plants. Part III. The effect of low-temperature drying on the distribution of nitrogen in the leaves of the runner bean 599
CHIBNALL, A. C. Investigations on the nitrogenous metabolism of the higher plants. Part IV. Distribution of nitrogen in the dead leaves of the runner bean 608
Chickens, effect of good protein on (Plimmer and Rosedale) 19

INDEX

Accessory food factors, conditions of inactivation of (Zilva) 42
Andrenaline, action of, on secretion of mammary gland (Rothlin, Plimmer and Husband) 3
Amino-acids of flesh (Rosedale) 27
ANNETT, H. E. The enzymes of the latex of the Indian poppy (*Papaver somniferum*) 765

CHIBNALL, A. C. Investigations on the nitrogenous metabolism of the higher plants. Part IV. Distribution of nitrogen in the dead leaves of the runner bean 608
Chickens, effect of good protein on (Plimmer and Rosedale) 19

Chickens, enzymes in alimentary canal of (Plimmer and Rosedale) 23
Chickens, vitamin requirements of (Plimmer and Rosedale) 11
Chondrus crispus, constitution of cell wall of (Russell-Wells) 578
CLIFFORD, W. M. The effect of cold storage on the carnosine content of muscle 341
CLIFFORD, W. M. The catalytic destruction of carnosine in vitro 792
Coagulation of blood (Pickering and Hewitt) 587
Cod liver oil, refined, vitamin *A* content of (Stammers) 659
COHEN, A. Xylenol blue and its proposed use as a new and improved indicator in chemical and biochemical work 31
Colloids, osmotic pressure of solutions of, influence of salt solution on (Ogata) 449
COMPTON, A. Blood enzymes. II. The influence of temperature on the action of the maltase of dog's serum 460
COOPER, E. A. and WALKER, H. Further observations on the nature of the reducing substance in human blood 455
COWARD, K. H. and DRUMMOND, J. C. On the significance of vitamin *A* in the nutrition of fish 631
COWARD, K. H., *see also* DRUMMOND, J. C., GOLDING, J., JAMESON, H. L.
CRICHTON, A., *see* PLIMMER, R. H. A.
Cysteïn, metallo-derivatives of (Harris) 739

Di-amino-acid content of muscle (Rosedale) 27
Diatom, marine, synthesis of vitamin *A* by (Jameson, Drummond and Coward) 482
Dibenzoylcystine (Wolf and Rideal) 548
Diet, basal, for rats, modification in (Bond) 479
Digitonin, physiological effects of (Ransom) 668
Drosophila, vitamin requirements of (Bacot and Harden) 148
DRUMMOND, J. C. and CANNAN, R. K. Tethelin—the alleged growth-controlling substance of the anterior lobe of the pituitary gland 53
DRUMMOND, J. C. and ZILVA, S. S., with the co-operation of COWARD, K. H. The origin of the vitamin *A* in fish oils and fish liver oils 518
DRUMMOND, J. C., *see also* COWARD, K. H., GOLDING, J., JAMESON, H. L.

Eels, respiratory exchange of (Gardner and King) 736
Enzymes, distribution of, in alimentary canal of chickens (Plimmer and Rosedale) 23
Enzymes of blood (Compton) 460
Enzymes of latex of Indian poppy (Annett) 765
Equines, the blood of (Neser) 770
Ergamine, action of, on secretion of mammary gland (Rothlin, Plimmer and Husband) 3
Excretory rhythm (Campbell and Webster) 507

Fat, formation of, by the yeast cell, conditions influencing (Smedley MacLean) 370
Fat, influence of, on nitrogen distribution in urine (Cathcart) 747
Fat-soluble factor, relation of, to rickets and growth in pigs (Golding and colleagues) 394
Fatty acids, with branched chains, mode of oxidation of (Kay and Raper) 465
FEARON, W. R. and FOSTER, D. L. The autolysis of beef and mutton 564
FINDLAY, G. M. and MACKENZIE, R. Opsonins and diets deficient in vitamins 574
Fish, fresh water, respiratory exchange in (Gardner, King and Powers) 523
Fish liver oils, origin of vitamin *A* in (Drummond and Zilva) 518
Fish oils, origin of vitamin *A* in (Drummond and Zilva) 518
Fish, vitamin *A* in nutrition of (Coward and Drummond) 631
FOSTER, D. L., *see* FEARON, W. R.
Fruit, stored, changes which occur in pectic constituents of (Carré) 704

GARDNER, J. A. and KING, G. Respiratory exchange in fresh water fish. Part IV. Further comparison of gold-fish and trout 729
GARDNER, J. A. and KING, G. Respiratory exchange in freshwater fish. Part V. On eels 736
GARDNER, J. A., KING, G., and POWERS, E. B. The respiratory exchange in fresh water fish. III. Gold fish 523
Gelatin, dialysed, properties of (Lloyd) 530
Gelatin, value of, in relation to nitrogen requirements of man (Robison) 111
Gels, elastic, structures in, caused by formation of semipermeable membranes (Hatschek) 475
GHOSE, S. N. The examination of some Indian foodstuffs for their vitamin content 35
Glycine, synthesis of, from formaldehyde (Ling and Nanji) 702
Gold-fish, respiratory exchange in (Gardner and King) 729
Gold-fish, respiratory exchange in (Gardner, King and Powers) 523
GOLDING, J., ZILVA, S. S., DRUMMOND, J. C. and COWARD, K. H. The relation of the fat-soluble factor to rickets and growth in pigs, II 394
